

Volvo Ew70 Workshop Excavator Service Repair Manual

COMPACT EXCAVATOR EW70 With its exceptional power and stability, and its extraordinary sturdiness, the wheeled Volvo EW70 works with maximum speed and efficiency on the most difficult sites. Its high degree of mobility, its remarkable quietness and its compact dimensions make it the ideal machine for all public works applications. A Volvo tradition, this machine meets a strict specification with a single objective : to make a difference on the site.

The back cover opens completely, giving excellent access to the engine and hydraulic pumps. All maintenance and checking points are conveniently located close to hand.
