The manual provides the most reliable information.

The aim of this manual is to help you get the best value from your Terex HR 20 Excavator. This manual includes many of the specifications and procedures that were available in an authorized Terex HR 20 Excavator dealer service department.

It provides information and procedures for routine maintenance and servicing. It offers diagnostic and repair procedures to follow when trouble occurs.

For many simpler jobs, doing it yourself may be quicker than arranging an appointment to get the Terex HR 20 Excavator into a dealer and making the trips to leave it and pick it up.

A lot of money can be saved by avoiding the expense the shop must pass on to you to cover its labour and overhead costs.
